

REMARKS

In the present application, the specification has been amended to correct minor errors. Claims 1-17 are pending in the application. The preliminary amendment is a Substitute Specification because the number or nature of the amendments renders it difficult for the Examiner to consider the application. The substitute specification includes no new matter.

A marked-up copy of the Substitute Specification showing the matter being added to and the matter being deleted from the specification of record is here submitted. A Substitute Specification in clean form without markings as to the amended material is also here submitted.

Claims 1-17 are in the application. Minor amendments are made to claims 1-3 and 7. New claim 17 is added.

The Examiner is respectfully requested to replace the specification of record with the substitute specification which comprises the description and abstract. Entry and favorable consideration of the present preliminary amendment and new claim 17 is respectfully requested.

No fee is believed to be due with this Preliminary Amendment. However, the Commissioner is hereby authorized to charge any fees which may be required for this Preliminary Amendment, or credit any overpayment to Leviton Manufacturing Co., Inc. Deposit Account No. 12-1185.

Respectfully submitted,

Date: November 30, 2004
